THE ULTIMATE PRIVATE INVESTMENT

Pre 1933 Gold coins hail as the ultimate Private investment. Exempted by Executive order under President Roosevelt in 1933 Rare and Historic coins carry the distinction of not only being non-confiscate able but are also private and non-reportable. These coins are limited in their supply and are highly sought after by investors which contribute to their increase well above ordinary bullion. These semi-numismatic coins are also slow to decline when the spot markets begin to decline giving you plenty of time to liquidate and avoid unnecessary losses.
